

# Crown Carveries LN18 and Festive 2018

Monday, 22nd October 2018 13:59 PM

## **FOOD ALLERGIES AND INTOLERANCES**

This guide is provided to enable you to make your own decision on menu choice. We cannot recommend or tell you what is suitable for you to eat but we are happy to provide you with the information you need to be able to make an informed decision.

The information in this allergen guide is based on recipe information and supplier specifications. Please be aware that this allergen information may change at any time so please make sure that you check it each time you visit and inform a team member of your allergy or intolerance dietary requirements every time you dine with us (before you place your order), even if you have eaten the dish before. That way, we can ensure that extra care is taken when preparing your meal to help prevent allergen cross-contamination.

Our allergen information covers the following allergens: Celery, Cereals containing Gluten (Wheat including varieties such as Spelt and Khorasan; Rye, Barley, Oats), Crustaceans, Egg, Fish, Lupin, Milk, Molluscs, Mustard, Peanuts, Sesame, Soya, Sulphites (over 10ppm) and Nuts (specifically Almonds, Brazils, Cashews, Hazelnuts, Macadamia Nuts, Pecans, Pistachios, Walnuts) and products thereof.

Standard garnishes and accompaniments are included, unless specified. Items that are added as a self selection, choice or trade-up must be reviewed and added to the base information.

We review and republish this information on notification of changes but the circumstances in which a product is made, packaged, stored and distributed may change without our knowledge.

### **CROSS-CONTAMINATION:**

All our food is prepared in a kitchen where cross contamination may occur and our menu descriptions do not include all ingredients.

Food preparation areas, storage areas and cooking equipment (e.g. fryers, grills etc) may be shared and fried items containing different allergens may be cooked in the same oil. Our suppliers may also have allergen cross contamination risks. If you are concerned about possible allergen cross contamination of the food you wish to eat, please ask a team member for further information on our cooking methods and policy, and they may also be able to show you ingredient packaging indicating any 'may contain' warnings that the supplier has provided.

As part of the legislation on The Provision of Food Information to Consumers, Regulation (EU) No. 1169/2011, we will only highlight allergenic ingredients in this guide if they are intentionally added to a product.

We hope that you enjoy your meal!
